以微笑迎接每一天，您也可以！

想一覺醒來感覺精神飽滿、活力充沛？秘訣在於晚上是否能夠安睡。第一步是先換一張新床褥，但記得要配上合適的枕頭及被，才能相得益彰，所以這本「舒適睡眠目錄」會介紹相關產品。我們的床褥及床上用品款式俱備，能配合不同體型及個人喜好，締造屬於您的極致舒適睡眠體驗。您可以馬上把所需產品帶回家，明早醒來定能感覺煥然一新。

It feels good to start your day with a smile. Here's how to do it!

Focused, refreshed, feeling full of the joys of spring? How well your day goes depends a lot on how well you slept last night. A new mattress is a great starting point, but it's when you combine it with the right pillow and quilt that you'll feel its full effects, so we've included them in this brochure, too. Our product range is designed to suit different physiques and personal preferences, to offer total comfort, tailored to suit you. You can even bring everything you need home today, and be waking up with a big smile on your face by tomorrow morning.

親身試過 亦經測試

宜家家居的測試實驗室內有一個重300磅、以木及鋼製成的「人」。「他」會在床褥上滾動49,876次，相當於正常人使用床褥25年。與此同時，由於我們每晚上床或早上起床時都會坐在床邊，所以我們亦以100公斤的重量測試床褥邊緣20,000次。無論您多麼疲倦，我們確保床褥讓您長年累月都能夠夜夜酣睡。

Tried and tested

In our test labs, there's a 300-pound wood and steel "man", whose job is to roll around on our mattresses, 49,876 times. Which equals 25 years of regular human use. While he's doing that, we also test the edges of our mattresses 20,000 times with a 100kg weight, since you sit here before lying down for the night, or getting out of bed in the morning. So however tired you are, we're quite sure your mattress will give you a good night's sleep for years and years to come.

為何我們能生產既優質又超值的床褥？

WHY WE COULD MANUFACTURE GOOD QUALITY MATTRESS AT SUCH A LOW PRICE?

1

只因我們善用物料

我們採用天絲纖維(Lyocell)及平織法，從而減少用棉的數量，耗水量比較少，令成本降低，且質地更柔滑。

BECAUSE WE FIND THE BEST WAY TO USE THE MATERIALS

We use lyocell and plain weaving method to reduce the use of cotton as filling materials, which use less water and reduce the production cost, but without affecting the quality.

2

只因我們大量生產

我們找來最合適的生產商，大量生產過百萬件貨品，直接減低成本，但對產品品質卻絕不讓步。

BECAUSE WE PRODUCE IN LARGE QUANTITY

We do everything we can to lower our prices, first we seek for the most suitable manufacturers around the world; and then we produce millions to reduce the transportation and storage costs, but by no means will we sacrifice the quality for price.

3

只因我們直接從生產商訂貨

為減低成本，我們直接從生產商訂貨及運送至店鋪，減省過程中不必要的開支，進一步降低成本。

BECAUSE WE ORDER DIRECTLY FROM MANUFACTURER

We order directly from manufacturer to minimise the transportation cost, we also remove the expensive middlemen to further reduce the cost.

壓力測試床褥有多舒適

我們在床褥上作壓力測試，記錄床褥受壓時的抵抗力，以驗證床褥的承托力。此外，我們在個別床褥上作溫度、濕度分佈等測試，目的是測試床褥的舒適程度。

We press on them for comfort

We test firmness by using a pressure test which records the resistance when pressure is applied on the mattress. We also test individual mattresses for comfort, such as temperature and moisture distribution.

拉扯及灑水測試褥面質量

我們在床褥表面又拉又扯，把液體灑在上面，用這些特殊方式測試褥面織物的防污功能，確保每張床褥也持久耐用。

We pull, tear and spill on them for fabric quality

We conduct special fabric tests on mattresses by pulling, tearing, and spilling liquids to ensure that the ticking resists stains and is strong enough to last the lifetime of the mattress.

香煙點燃測驗抗燃力

為保障您的安全，我們進行最嚴格的不助燃測試。我們先在床褥上加上一層有機阻燃劑，然後在床褥幾處點燃香煙。這幾項測試是要確保床褥並不會著火。

We burn them for flame resistance

For your safety, we apply the strictest measures to ensure that our mattress are flame resistant. We treat them with an organic flame retardant, followed by placing a cigarette on different areas of the mattress. The requirement is that it cannot catch fire.

拒絕加添化學劑！

您的床褥會伴隨您一生中的1/3時間，因此我們絕不容許床褥帶著化學劑，以致影響您的健康。所以，我們拒絕作防菌及防蟎處理，亦沒有加入防腐劑。

But we avoid using chemicals!

Your mattress is with you one-third of your time. So we do not want it to carry chemicals that would affect your health. That is why we deliberately refrain from using anti-bacterial treatment, anti-mite chemicals, and scotch guard.

天然物料

我們床褥所採用的天然物料，如馬鬃毛、棉、羊毛及天絲纖維 (lyocell) 不僅格外舒適且能平均分散身體壓力，同時具備良好的透氣及排濕力，確保乾爽並能維持溫度平均，給您前所未有的睡眠質素。我們提供多種不同類型床褥，並結合特選的天然物料，確保您能擁有絕佳舒適且徹底放鬆的晚上！

Natural materials

The natural materials used in our mattresses provide excellent support and pressure distribution to offer you the very best in sleeping comfort. Natural materials like horse hair, cotton, wool and lyocell, also ensure good ventilation, and transport moisture away from your skin to maintain a dry and comfortable environment. We offer a range of mattresses that combine a selection of natural materials to ensure you enjoy the best possible comfort and rest through the night.

乳膠

乳膠是一種天然物料，由橡樹樹汁合成製造。柔軟富彈性的特性令床褥能緊貼身體曲線，提供舒適準確的承托。乳膠的透氣孔設計，使床褥透氣不焗身，並有效地將濕氣帶走。乳膠柔軟度高，您可按個人需要選擇最合適的物料。

Latex

Latex is a natural material manufactured from sap produced by the rubber trees, and also synthetically. Latex provides precise support to the whole body and is both pliable and strong. The material also promotes air circulation and carries away moisture. Natural latex is softer, but which type will suit you best is more a question of taste.

彈簧

彈簧床褥具備良好的彈性及絕佳透氣性，以下有兩種類型的彈簧床褥可供選擇：

Bonnell彈簧為沙漏形彈簧，負荷越重，回彈力越強，特別適合用於特級承托床褥。

獨立袋裝彈簧是將彈簧個別包在袋內，使每個彈簧能個別受力，緊貼您的身體。

Springs

Spring mattresses have very good bounce and excellent ventilation properties. There are two types of spring mattresses to choose from.

Bonnell springs are hourglass shaped, which means their resistance increases with load. They are therefore best suited for firm mattresses.

Pocket springs are coils individually encased in pockets so that each can work independently to follow the contour of the body.

泡膠

泡膠柔軟兼具彈性，能貼合身體曲線並給予堅韌支撐。宜家家居泡膠床褥提供具延展性且可清洗的布套，並有以下三種類型泡膠可供選擇：

聚酯泡膠柔韌度高，回彈力強，能保持原狀。宜家家居所有的聚酯泡膠床褥每立方米的重量由**18kg**至**50kg**不等。泡膠越重，回彈力越強，也就更耐用。

高彈性泡膠經過特別加工程序，回彈力強，密度高，能承受較重負荷，亦較一般泡膠更耐用。

記憶泡膠能夠更有效地紓緩疲勞，而且對溫度和體重敏感，能夠緊貼您的身體曲線，當您起床後，泡膠便會回復原狀。

Foam

Foam moulds to your body shape and gives firm support, while still being soft and resilient. IKEA foam mattresses have stretchable, washable covers and come in three types of foam:

Polyurethane is supple, resilient, and retains its shape well. The polyurethane of IKEA mattresses weights from 18kg/m³ up to 50kg/m³. The heavier it is, the more resilient the mattress, and the longer it is likely to last.

High resilient foam specially processed to give it higher elasticity and density, this type of foam is suitable for heavier loads. It is also more long-lasting compared to normal foam.

Memory foam provides high pressure-relieving properties, which is a temperature and weight sensitive foam that moulds to your body and regains its natural shape when not in use.

任您愛 隨您換 在家試用**100**天

宜家家居的床褥由優質物料製造，為您每晚帶來舒適放鬆的睡眠。我們不但讓價格變得平易近人，亦確保每張床褥都舒適優質。我們仔細考慮產品結構、設計和運輸方式等每個細節，從而找到創新且更好的方法來降低售價。除了宜家家居本身的實驗室外，我們的床褥亦通過獨立的專業實驗室檢驗，以檢定床褥的功能及舒適等級。每張床褥在承托度、耐用度、透氣度、保暖及壓力分佈等範疇都經過嚴格測試。因此，我們提供長達**100**天的試用保證及**25**年品質保證。當您親身體驗我們的床褥後，您都一樣會愛不釋手！

Love it or exchange it! Try it at home **100** days.

Our mattresses are made from high quality materials that will reward you with restful sleep, night after night. And we keep their price affordable, but not by cutting back on quality or comfort. We do it by looking at all other aspects of our design, construction and transport system to find better, more economical answers. At IKEA, as well as having our own lab, we use respected external testing facilities to gauge our products' comfort levels and performance. They are tested for key factors like durability, firmness, moisture transportation, heat insulation and pressure distribution. That's why we offer you a "100-day mattress and mattress pad trial" and a "25-year guarantee". And when you go to bed on one of our mattresses, you'll soon see why.

→ 有關品質保證的詳情及細則，請看第31頁。

For further details on guarantee description and conditions, please see page 31.

睡眠也可以保護環境

BEING KIND TO MOTHER NATURE IS AS EASY AS GOING TO SLEEP

喜愛天絲纖維(Lyocell)的理由可以很多；我們的床上用品，就是採用這種可循環再生的天然纖維混合棉製造而成。

在生產過程中，天絲纖維用水量比棉花少，而所用的化學品屬於無毒物質，並可回收再用。除了是保護環境的優良選擇，天絲纖維更可吸收及排走濕氣，讓您整夜保持清爽舒適。對地球好，對自己好，晚上當然安枕無憂！

There are many reasons to be fond of lyocell – a natural and renewable fibre that we mix with cotton for our bedlinen.

To start with, lyocell uses less water than cotton when being produced. Second, lyocell is manufactured with the use of non-toxic recyclable chemicals. But lyocell isn't just a good choice – it also has the ability to absorb and wick moisture away, keeping you dry and comfy all night through.

選擇合適的被及枕頭

宜家家居提供不同物料的被及枕頭讓您選擇，包括羽絨及羽毛等天然物料，以及天絲纖維(Lyocell)及記憶泡膠等人造物料。您可先考慮哪種物料最符合您對舒適度的需求，縮小選擇範圍。

Find your suitable quilt and pillow

IKEA provides a range of different materials for you to choose from, for example, down and feather, lyocell synthetic fibre and memory foam. Start by considering what material is the best fit for you in terms of comfortability to narrow down the consideration set.

天然物料
NATURAL MATERIALS

天然的保暖物料，非常透氣，有效吸濕，確保整夜乾爽暖和，可舒適入夢。採用天然物料的被及枕頭可攝氏60度機洗，但不建議仿倣人造物料被般頻密清洗。

Natural insulators breathe and are good at absorbing moisture. You stay dry and warm all night – and enjoy feeling cosy while you sleep. These quilts and pillows can be machine-washed at 60°C, but not as often as man-made quilts.

羽絨及羽毛
DOWN AND FEATHER

羽絨及羽毛是天然物料。羽絨鬆軟輕盈，羽毛則富有彈性且較重，因此內填羽絨越多的被，便越柔軟輕盈。羽絨及羽毛亦可為頭部提供柔軟舒適的承托。羽絨鬆軟輕盈，羽毛富彈性，承托力較高。因此內填羽絨越多的枕頭，便越鬆軟。

Down and feather fillings are natural insulators. Down is soft, fluffy and light. Feathers are resilient and heavier. This means that the more down a quilt contains, the softer and more light-weight it is. Also, down and feather fillings are soft and comfortable for your head. Down is soft, fluffy and light. Feathers are resilient and supportive. This means that the more down a pillows contains, the softer and fluffier it is.

人造物料
MAN-MADE MATERIALS

人造物料的被及枕頭非常容易打理，可經常以攝氏60度機洗，而且能迅速晾乾，適合對塵蟎敏感的人士。部分被及枕頭採用超細纖維、天絲纖維(Lyocell)內填物料或由記憶泡膠所製的。

All man-made quilts and pillows are very easy to care for. They can be machine-washed frequently at 60°C, which makes them a good choice for people with dust mite allergies. Moreover, they dry quickly after being washed. Some quilts and pillows have a microfibre filling, some contain lyocell or they are made of memory foam.

天絲纖維
LYOCELL

天絲纖維(Lyocell)是以純木漿製成的可再生纖維素纖維。生產過程的用水量比棉花少，環保之餘，天絲纖維能排走濕氣，讓您整夜保持乾爽舒適，睡得更安穩。

Lyocell is a renewable, cellulose fibre, made from 100% wood pulp. It's kind to the environment, using less water to produce than cotton. Lyocell draws moisture away, keeping you comfy and dry all night.

記憶泡膠
MEMORY FOAM

記憶泡膠能因應體溫調整，更可緊貼身體線條，提供均勻舒適承托，而且不易移位，讓您徹底放鬆，享受優質睡眠。

Memory foam responds to your body temperature and moulds to the contours of your body. You get good, even support and move less around in bed so you can fully relax and sleep better.

超細纖維
MICROFIBRE

超細纖維是超柔軟的輕巧合成物料，令被及枕頭擁有羽絨般的質感。這種內填物料透氣柔軟，可經常洗滌，容易清洗打理，是理想的選擇。

Microfibre is a lightweight, ultra-soft synthetic material which gives quilts and pillows a downlike feeling. It is a good alternative if you want a filling that is soft, airy, can be washed frequently and easy to wash and care for.

選擇被時 要考慮甚麼？

您需要考慮的是保暖等級。

宜家家居提供不同暖度的被讓您選擇。
您可以根據需要，挑選最適合您的被。
選擇前，先考慮幾個問題：

- 「您是否常在夜裡覺得熱或不夠暖？」
- 「您是否和另一半共用一張被？」
- 「房間的溫度高或低？」

What you need to consider when you are choosing a quilt?

You need to consider your warmth needs.

IKEA provides quilts with different warmth needs. You can choose the most suitable quilt according to your need. Consider several questions when buying the quilt:

- "Do you feel hot or cold at night?"
- "Are you sharing quilt with your partner?"
- "What is the room temperature?"

冷氣被 COOLER

如果比較怕熱或處於炎熱季節，可以選擇涼爽輕薄的冷氣被。
If you often feel warm or during hot season, you can choose this light and cooling quilt.

和暖被 WARMER

如果睡覺環境的溫度適中，可以選擇中等厚度的和暖被。
If the surround temperature is moderate during sleeping, this quilt with medium thickness will be your choice.

禦寒被 EXTRA WARM

如果比較怕冷或於寒冷的冬季，可以選擇溫暖厚實禦寒被。
If you feel cold or during cold season, you can choose this warm and thick quilt.

- 01 RÖD TOPPA 雙人和暖被 \$429
闊200×長200cm 102.715.38
- 01 RÖD TOPPA double quilt, warmer \$429
W200×L200cm 102.715.38

清潔及保養

1. 合成或纖維素纖維的被可經常洗滌。
2. 羽絨及羽毛被每年可清洗三至四次，洗滌時只須用平常1/3分量的洗衣液。
3. 洗滌前宜先確定家中洗衣機有足夠空間及轉動力清洗被，否則應交予專業洗衣店清洗。被濕水後的重量會比原先重。
5. 每天抖動被可令填料均勻分佈，減少塵蟎亦令被充滿空氣，保持清淨鬆軟。
6. 在乾衣機內放置一個網球，可讓焗乾的被份外鬆軟。

CLEAN AND CARE

1. Quilt with synthetic or cellulose fibre filling can be washed frequently.
2. Quilt with down and feather filling should be washed 3-4 times a year. Use only one third of the normal amount of washing detergent.
3. Always make sure that your washing machine is big enough for your quilt. If not, you can hand it in to be laundered. A quilt is heavier when it is wet.
5. Shake pillow everyday to distribute the filling material evenly. This also reduces dust and mites and fills the quilts with air, which keeps it fresh and fluffy.
6. To make the quilts fluffier, you can put a tennis ball in the tumble dryer.

選擇枕頭時 要考慮甚麼？

您需要考慮的是高度和填料。

宜家家居提供人體工學記憶泡膠枕(標準尺寸)、乳膠枕(標準尺寸)、人造物料枕及天然物料枕(可隨心選擇不同的填充物/高度)。配搭枕頭保護套，可使枕頭常保乾淨，延長其使用壽命。

What you need to consider when you are choosing a pillow?

You need to consider the height and materials

IKEA provides pillows made of memory foam (ergonomic pillows with standard size), latex(standard size), man-made and natural materials (you can choose different filling/height). With the addition of pillow protector, it maintains the cleanness and hygiene of pillow.

舒適枕 **SOFTER**

枕頭填料適中，如果您喜歡中等高度的枕頭，這會是理想之選。
This pillow filling is moderate. If you prefer medium-high pillow, this one suits you.

承托枕 **FIRMER**

枕頭填料較多，如果您喜歡高的枕頭，這會是理想之選。
The filling of this pillow is fuller which suits people who like high pillow.
